

DIGITAL COMMUNICATION PROJECT

ET5350

BLOG

Use Blackboard's blog tool or create a blog using **wix.com**.

Tips: Blogs are short, popular written pieces; feel free to add links and be sure to identify and write to a clear audience.

VIDEO

Record your video on your smartphone or by renting equipment from the DLL.

Use **edpuzzle.com** to include interactive quizzes in your video or use **VideoScribe** to produce whiteboard videos (available in the DLL). Use iMovie to edit your video.

PODCAST

Record your podcast in the podcast suite in Templeton (contact Digital Media to reserve this space) or with your smartphone.

Use Garageband or **anchor.fm** to edit your audio.

Check out Nancy Duff talking about her new book *Making Faithful Decisions at the End of Life* on the seminary's Distillery podcast The Thread for a great example!

WIKI

Use Blackboard's wiki tool.

Tips: Wiki pages are generally educational and academic in nature; feel free to add links and be sure to include citations.

WEBSITE

Use **wix.com** or another equivalent web design site.

Remember to include 2-3 interactive links (see syllabus).

MIND MAP

Use **padlet.com** or **coggle.it** to write about concepts and connect them to each other.

DIGITAL LEARNING LAB

For help with wix.com, Garageband, VideoScribe, iMovie, padlet, or to explore other tools, feel free to stop by the Digital Learning Lab (Library 3132) in between 1-5 pm on weekdays. For any tech related questions or for more help, you can email learning@ptsem.edu.
